

Why you should have your property protected sgainst loss by fire. First: An Insurance Policy costs little compared with the protection it affords. Second: Fires break out in a night in the most unlooked for places. Third: It is the best investment of a small amount of money you can possibly have, and will add greatly to your peace of mind and comfort to know that you are sufficiently protected in this important matter.

ISAAC S. JONES Insurance and Real Estate Agent Richards Building, 91 Main Street

DO YOU OWN REAL ESTATE? DO YOU OCCUPY YOUR OWN DWELLING HOUSE? You cannot collect rents from a burned building, and you may have to

pay some one else rent while you rebuild. Insure your rents with B. P. LEARNED & CO.

Willard Informs Promoters That He Will Be Unable to Meet Moran in

New York, Jan. 13 .- The propose New York, Jan. 13.—The proposed ten-round bout between Jess Willard, world's heavyweight champion, and Frank Moran, which it was expected would take place in this city some time in March, probably will be postpoped until Memorial Day, it was reported tonight. This step has become necessary, it is said, because Willard has informed the promoters of the match that he cannot fight in March. If the later date is selected the bout will be staged in the open.

Homer Baker, the international half-mile champion in 1914, began competing for the New York A. C. when he was only 17 years old. He is 22 now.

OF FLIGIBILITY RULES. Bars Students Who Have Played Professional Ball-Drops Brickley.

Hartford, Conn. Jan. 13.—Trinity College today adopted a new set of eligibility rules, providing, among other things, that ne student shall represent the college in athletics who has been a member of a classified baseball league under the national commission. This will bar George Brickley, the former professional olayer, whose presence in the football team last fall caused several colleges to drop Trinity from their schedule.

Another new rule provides that if a student has played on another college team, he must be a student at the local college for a year before he is eligible to represent it on a varsity team.

Efforts to Break the Slough of De pression Proved Abortive.

New York, Jan. 13.-Efforts to life the market out of its recent slough of depression by a concerted drive against the increasing short interest against the increasing short interest in special stocks proved abortive in today's dull and professional session of the stock exchange. A few of the war shares made sharp recoveries from low prices of yesterday, practicularly Crucible Steel, which was helped by the company's favorable statement of earnings for December. Another encuraging development in that quarter was the report that the administration at Washington had registered its opposition to any legislation aimed at an embargo on exports of munitions. of munitions.

gains in high priced specialties, in-cluding United States Industrial Alco-hol common and preferred, American Coal Products and other issues of kindred calibre, but the movement in

Coal Products and other issues of kindred calibre, but the movement in these stocks was plainly manipulative and excited no general interest. Coppers for a time displayed a better tone on unconfirmed rumors of export orders at the new high price of 24 1-2 cents.

During the mid-session the rise gathered further impetum from a demand for high class rails, including New York Central and some of the Pacifics, as well as Chesapeake and Ohio, New Haven and the Southern group. Gains were largely, if not wholly wiped out in the final hour, when heavy selling of Mexican lesues was resumed. Mexican Petroleum under an extreme decline of six to 110 1-2 and American Smelting dropped 3 3-8 to 103 3-4. The weakness of these shares was accompanied by many reports dealing with conditions in the southern republic.

U. S. Steel, which manifested an irregular tendency at the outset, fell away with other leaders toward the close, its final quotation of 85 1-4 representing a net loss of 7-8. Total sales amounted to 515,000 shares.

Danielson vs. Putnam. The Quinebaug Valley High School Basketball league is creeping toward the end of the season. Putnam and Danlelson are coming down the home the end of the season. Putnam and Danielson are coming down the home stretch neck and neck, with the field stringing along behind. Last year Danielson would have none of Putnam and the league, but the year before Putnam wrested the championship from the team down the river. Danielson came back into the league again this year and has played one game with its most bitter rival, and Putnam won. It now looks as though the grand finish would see the two teams again fighting it out for championship honors as they are each consistently winning all their games from other teams, and stand but one game apart, the game that Putnam won on its own floor. If Danielson wins on its floor when the next game is played, it will make the teams tied for first place. New rules have been adopted this year, which takes some of the speed from the games, but also eliminates rough tactics which caused the split with Danielson in 1914.

Perritt a Mystery.

"Pol" Perritt is one of baseball's mysteries. While with the Cardinals, especially during the 1914 season, he showed up like one of the coming wonders in the hurling division.

"Perritt had everything—speed, control, curves and a brain," said Miller Huggins, manager of the Cardinals. "When he went to the Giants I figured that he ought to finish one-two-three in the pitching record list. But he didn't. His reversal of form surprises me I can't figure it out, and I don't suppose anyone else can, unless it was season will not be lacking sunport.

delivering short and snappy diamond orations whenever a new man comes to bat. Professor William Howard Taft and Dean Briggs had an interesting pariey on baseball yapping at the meeting of the association delegates, and the former remarked on the noisy chiding that occurred during the Yale-Harvard baseball game at New Haven last June. When Dean Briggs asked which team did the yapping Professor Taft apprised him of the fact that one team was doing as

tory throughout the circuit was not adopted. The plan to provide a \$5,000 trotting stake race for horses which have not won \$2,000 gross was approved but the recommendation for a \$3,000 stake for pacers under similar conditions was rejected.

The circuit stewards also rescinded the resolution adopted last year urging associations to alter the win race rule.

The following schedule was adopted:

Considerable List.

A partial list of Princeton's intercollegiate sports, with the number of men competing, shows 38 baseball teams, 342 men; rowing, 8 crews, 64 men; swimming, 4 teams, 32 men; relay racing, 35 teams, 245 men; golf, 10 teams, 60 men; soccer, 4 teams, 52 men, and wrestling, 4 teams, 51 men. As one can see, football, basketball and other sports which draw large numbers of candidates are not included. If they were the list would no doubt be much larger.

Dr. Raycroft explains how this is done by saying: "One of the important functions of our department of physical education has been conceived from the first to be the development of exercise activities among Considerable List.

ceived from the first to be the development of exercise activities among the university students along two main lines—non-competitive, such as class work and individual exercises on the gymnasium floor and in the swimming pool; and competitive, such as baseball, rowing, soccer, handball and other forms, both indoors and our, for which we could provide facilities.

"We adopted this plan because we were convinced that such activities properly graded and supervised have a very important function in addition to their value in promoting healthy physical growth. In 1907 the students organized a basketball tournament for the upper class champlonship. In 1908 an upper class baseball series was run in addition to the varsity work. The following years other sports were added until now we have a close knit interclass organization."

ping Professor Taft apprised him of the fact that one team was doing as much as the other. The Harvard players will in no way

resemble the representatives of a dumb institute in their games this season, but all the senseless and fool-

ish chatter that characterizes many college games will be eliminated, and only a few, well-chosen words of ad-

vice and encouragement will be di-rected at the pitcher hereafter, in-stead of the wholesale lots of inane

verbiage.
One thing that will be strictly taboo will be the josbing of the players on the opposing teams. None of the mock

hilarity that is so common with some college ball teams will be tolerated at Harvard, and no criticism will be al-

lowed except through the proper chan-nels when the team captain may lodge a protest with the chief umpire.

With it you can dust, clean and polish a hardwood floor in the time it formerly took you to get ready to do it.

Besides, you do not have to get down on your hands and knees to dust under the bed or other hard-to-get-at places, or to stand on a chair to dust the top of the high furniture. All of the hard work is now made easy with the O-Cedar Polish Mop. It gathers all the dust or dirt from everywhere and holds it. The mop is easily cleaned by washing and then renewed by pouring on a few drops of O-Cedar Polish.
